

## **KAN-ED User Advisory Council Elections**

From notes forwarded by Mel Chastain:

### ***A defensible process...***

Council nomination call to be circulated (beginning with today's council meeting) by e-mail. Existing membership to nominate others or to volunteer themselves for consideration. Slate to be presented at June 17th meeting.

Ballot or show of hands on the 17<sup>th</sup>.

### ***Then:***

Rotation of leadership and eligibility for self-succession. At least one year of self-succession might really strengthen the year-to-year comprehensive nature of the actions for the council from year to year.

Greg (for instance) to succeed himself for one more year.

### ***Succession chain:***

Vice-Chair becomes chair, chair becomes past chair plus a secretary or council work group coordinator. There would then be four leadership positions, and one member from each of the four constituent groups could be asked to fill each of the four positions. This would allow for both representative involvement and continuity.
