

# Kan-ed Operations Bulletin

Date of Issue: June 15, 2006

## State of the Network

We experienced no backbone outages in May.

NAP Availability Statistics:

May 2006 Availability Statistics:

- ✓ Core Routers: 100.00% Uptime
- ✓ Distribution Routers: 99.95% Uptime
- ✓ Managed Site Total: 99.68% Uptime

Progress on work authorizations to lease additional bandwidth, aggregation equipment, and maintenance services across the state:

- ✓ The RFP 08046 (North Central Kansas) has been awarded, and work is beginning on that connection.
- ✓ Bids are under review for an aggregation circuit to connect FOX Business System. We anticipate award within the next 30 days.
- ✓ An RFI for Autonomous System Peering across the state is in development.
- ✓ An IFB is in development to connect central Kansas service providers in the Great Bend area.

## Upcoming Events

### Engineering Cycle Project Progress

- ✓ **Renovo:** We are continuing to work with Renovo Staff. Please continue to report new problems that you are experiencing, or re-reporting problems that you are still seeing to the NOC. We will be scheduling a meeting to discuss the uses of the scheduler reporting for sometime in July.

## Updates

### Hospital Project

We have 30 hospitals connected to the Kan-ed Network! Several of these connections are in the process of testing video. And we have an additional 50 hospitals in varying stages of the process!
