

# Kan-ed 2.0 Kan-ed Authorized Provider (KAP) Equipment Assistance Program

July 1, 2009

---

Kan-ed is excited to announce the Kan-ed Authorized Provider Equipment Assistance Program. This program will go into effect starting July 1, 2009. This program builds upon the existing Kan-ed Authorized Provider program.

This program will provide for financial assistance for equipment and installation fees associated with local provider equipment that is necessary to make the connection to the Kan-ed 2.0. network. You must be a telecom or cable entity to apply for these funds, and must also be a Kan-ed Authorized Provider ( KAP ). A list of Kan-ed Authorized Providers can be found at [www.kan-ed.org](http://www.kan-ed.org), as well as information on how to become a KAP.

Kan-ed currently provides a circuit and router from the Kan-ed AVPN to the KAP location. Grant funds in this program can be used by the provider to purchase a router or switch to connect to the Kan-ed AVPN router located at the provider location, or aggregation router for the provider to aggregate their local Kan-ed traffic to pass to the Kan-ed AVPN connection. The grant will include a one-time \$650 router/switch installation reimbursement if requested, plus up to 70% of the cost of one router / switch or aggregation router pending the availability of grant funds. Grants will be awarded on a first-come, first-serve basis. Applications may be submitted starting July 1, 2009.

An application is included on page 2 (back) of this document. For further questions, please contact Brad Williams at [bwiliams@ksbor.org](mailto:bwiliams@ksbor.org) or visit [www.kan-ed.org](http://www.kan-ed.org).
